

The Women's Commission for
Refugee Women and Children presents:

Certification *for the*
Minimum Initial Service Package (MISP)
for Reproductive Health *in* Crisis Situations:
A Distance Learning Module

Are you a humanitarian professional working in protection, health, water and sanitation or another sector? Are you a donor interested in familiarizing yourself with reproductive health issues in complex humanitarian emergencies? Are you a college student or new graduate eager to work in a crisis?

The **MISP Module** will help you understand how to address priority reproductive health needs at the onset of an emergency, brought on by conflict or natural disaster. When properly implemented, the MISP saves lives and prevents illness, particularly among women and girls.

Get certified.

Individuals who have successfully completed the MISP Module post-test will receive a certificate of completion that will also verify 3.5 continuing education credits for US-based nurses.

 Visit www.womenscommission.org or www.rhrc.org and become certified in the MISP Module today.

For more information, including how to order hard copies, email info@rhrc.org.

This continuing nursing education activity was approved by the New York State Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation. It has been approved for 3.5 contact hours.
