

WOMEN'S
REFUGEE
COMMISSION

Situation Analysis

Components:

Situation Analysis

Conflict Analysis

Participatory Assessment

Research. Rethink. Resolve.

Protection Exercise

Situation Analysis

- Assessing a complex situation within its wider context,
- identifying the main problems, needs, and resources within a target population,
- facilitate the process of planning in a systematic, strategic & integrated manner.

Research. Rethink. Resolve.

Conflict Analysis

Goal: Understand the ways conflict impacts livelihoods & longer term sustainability.

Conflict analysis entails assessing whether a program may perpetuate or renew the conflict.

Participatory Needs Assessments

Goals:

- Identify priorities & specific concerns of beneficiaries & surrounding community
- Identify existing skills, experience & resources
- Inform beneficiaries about available opportunities

Key Analysis

- Secondary data sources
- Outputs of stakeholder consultations
- Input from participatory assessments

*1. Synthesize

**2. Triangulate

***3. Analyze
