The Honorable Joseph R. Biden
President of the United States
The White House
1600 Pennsylvania Avenue, NW
Washington, DC 20500

Dear President Biden:

As leaders of immigrant, civil rights, humanitarian, human rights, and labor organizations, our missions include the goal of safeguarding asylum access in the United States. It pains us to watch the core of asylum rights in the United States crumble, and we write to urge the Biden administration to urgently reverse course.

The Trump Administration invented the Title 42 expulsions policy as the capstone measure toward their vision of destroying the United States asylum program permanently. This Administration's continuation of that program normalizes racist, anti-asylum policies. It is imperative that at this critical moment the administration loudly and clearly defend its plans to restore access to asylum and forcefully oppose the "Public Health and Border Security Act" introduced by Senators Lankford and Sinema and any other legislative efforts to delay rescission or maintain the use of Title 42 expulsions.

Four decades ago, Congress unanimously committed to welcome those seeking refuge. The previous administration did its best to unravel that commitment; we implore you to ensure that this Administration and Congress do not finish the job for them.

We stand ready to provide legal and humanitarian services and advocacy to and in support of the refugees in need of asylum in the United States, and we look forward to working with you to ensure they are able to access safety. We formally request an urgent meeting with you and relevant staff to discuss the termination of Title 42, readiness to manage any increases in migrants at the border, and how we can rebuild our asylum system in a humane and equitable fashion.

Sincerely,
